

GOOD YEAR AUTOCARE -NORTH LAKES

Goodyear Autocare North Lakes recently made the switch to a new solar energy system with Innolec.

With electricity prices climbing year after year, their rising bills were becoming a real challenge. By choosing Innolec's solar leasing solution, they've reduced their energy costs and locked in price certainty, protecting themselves from future increases. Better still, the system helps them meet their sustainability goals without having to change a single process — it's seamless, smart, and already delivering results.

Fast Facts:

System Size: 10.56kW

Carbon offset: 5.9T

Bill Reduction for Daytime usage: 30%
